

Cómo configurar OctoProctor

Antes de conectar esta integración a iSpring LMS, tendrá que crear una sesión en OctoProctor. Veamos cómo crear una sesión con un supervisor.

Cómo crear un rol de supervisión

1. Vaya a la sección **Users (Usuarios)** y haga clic en el icono +.

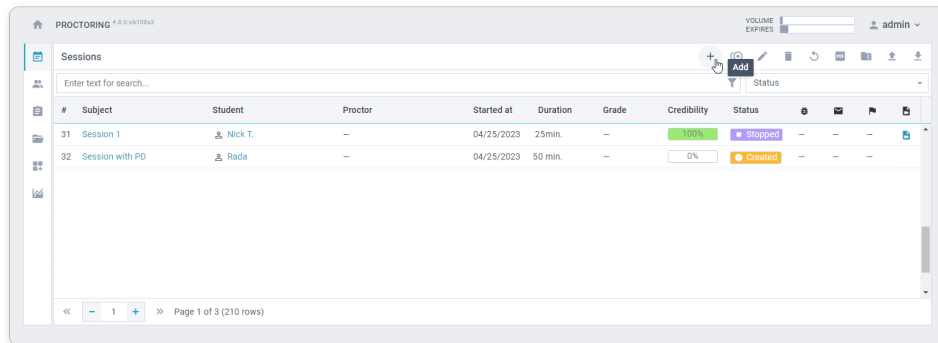

2. En el perfil de usuario, rellene los campos y cree un nombre de usuario y contraseña.

The screenshot shows the 'User profile' form. It has a title bar with a link icon, a checkmark, and a close button. The form contains several fields: 'Username' (with a red asterisk) containing 'Proctor', 'Provider' with placeholder text 'Integration provider name', 'Password' with masked characters, 'Role' (a dropdown menu with 'Proctor' selected and a list of options: Student, Proctor, Administrator), 'Nickname', 'Group', 'Language' (a dropdown menu with 'Interface language'), 'Labels' with placeholder text 'Labels for search separated by commas', and a 'Locked' checkbox. At the bottom, there are three tabs: 'General' (active), 'Face', and 'Passport'.

¡Hecho! Ha añadido un supervisor.

Cómo crear una sesión de supervisión

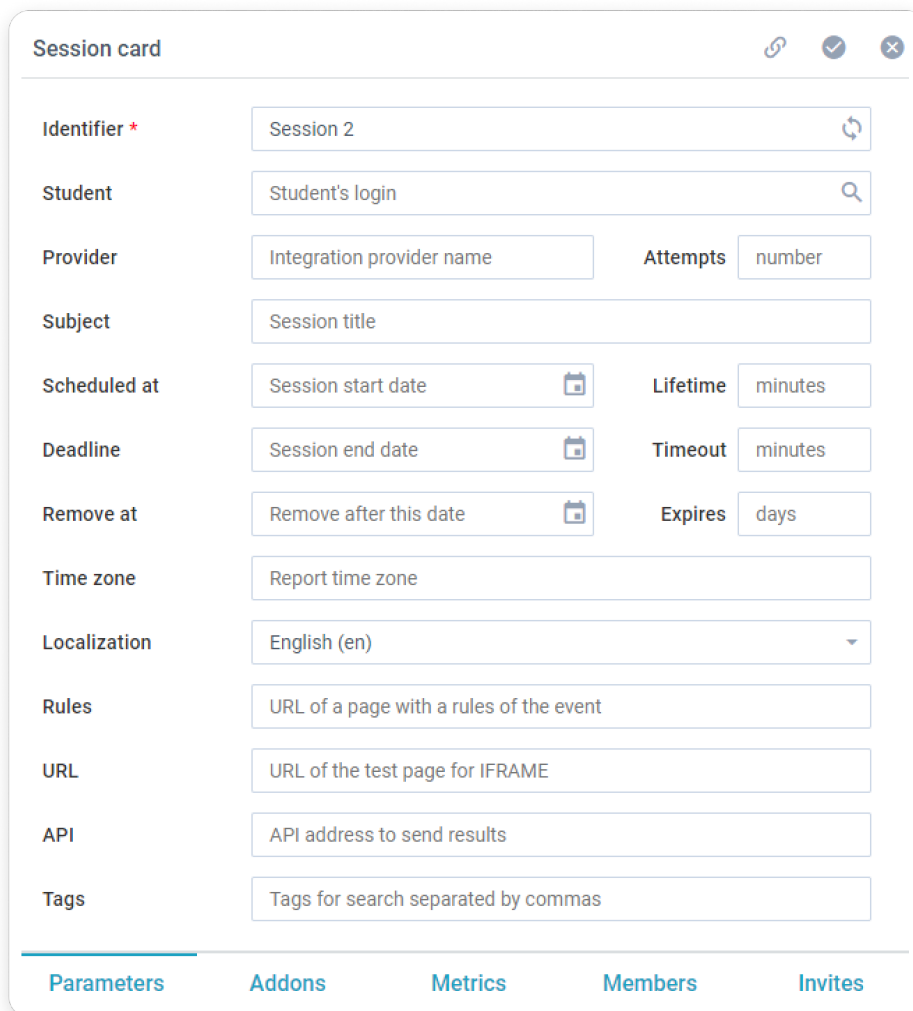

1. Vaya a la sección **Sessions (Sesiones)** y haga clic en el icono +.

The screenshot shows a web application interface for Proctoring. At the top, there's a header with 'PROCTORING 4.0.0 (b10842)' and a user profile 'admin'. Below the header is a 'Sessions' section with a search bar and a table. The table has columns: #, Subject, Student, Proctor, Started at, Duration, Grade, Credibility, Status, and icons. There are two rows of session data. Below the table is a pagination bar showing 'Page 1 of 3 (210 rows)'.

#	Subject	Student	Proctor	Started at	Duration	Grade	Credibility	Status	Icons
31	Session 1	Nick T.	-	04/25/2023	25min.	-	100%	Stopped	Icons
32	Session with PD	Rada	-	04/25/2023	50 min.	-	0%	Created	Icons

2. Introduzca el nombre de la sesión en el campo ID. Más adelante, utilizará el nombre de la sesión al habilitar la integración en iSpring LMS.

The screenshot shows a 'Session card' form with various fields for session configuration. The fields are arranged in a grid-like structure. At the bottom, there are five tabs: Parameters, Addons, Metrics, Members, and Invites. The 'Parameters' tab is currently selected.

Identifier *	Session 2		
Student	Student's login		
Provider	Integration provider name	Attempts	number
Subject	Session title		
Scheduled at	Session start date	Lifetime	minutes
Deadline	Session end date	Timeout	minutes
Remove at	Remove after this date	Expires	days
Time zone	Report time zone		
Localization	English (en)		
Rules	URL of a page with a rules of the event		
URL	URL of the test page for IFRAME		
API	API address to send results		
Tags	Tags for search separated by commas		

Parameters Addons Metrics Members Invites

3. A continuación, vaya a la pestaña **Addons (Complementos)** y seleccione qué debe comprobar y proporcionar el usuario antes de realizar la prueba, por ejemplo, una foto de su pasaporte.
4. A continuación, añada un supervisor de exámenes en la sección **Members (Miembros)**. En el campo de búsqueda, introduzca el nombre de usuario del supervisor de exámenes y haga clic en el icono +.

5. Cuando haya completado todos los campos, haga clic en el icono .
